Parking Management System

PMS OnDemand is an automated and multitasking application system developed by HR SOFTWARE SOLUTIONS Pvt. Ltd. (HRSS) its maximum configuration modularity means it can satisfy the requirement of large complex and small vehicle parking management system.

We are proud to say that HRSS is India's first company who has successfully installed and implemented India's most advanced Parking Management System (PMS) last year in Indian Railways, Tatanagar, Jamshedpur, Jharkhand and B.L KAPUR Super Specialty Hospital New Delhi.

Very soon we will be implementing PMS software in various locations in India for Indian Railways, Shopping malls etc.

Presenting metropolitan areas have seen a rapidly increasing in human population as well as vehicles. This directly results in the requirement of lots of vehicle parking. The advent of multi-level vehicle parks has made the management, revenue and security of vehicle parks the top most priority.

HRSS's PMS OnDemand solution caters to these requirements in an efficient way. Connection capability to virtual networks enables monitoring and remote management of parks.

PMS OnDemad offers more than just Vehicle parking lot management.

➡ PMS OnDemand (Parking Management system) help people find parking spots quickly, there by reducing Controls, ticketing system etc.

➡ Enabling Fool Proof frustration and enhancing the visitor's experience. PMS OnDemand indicates the free spaces available at every level at a car park at real time as well as efficient means of revenue management system.

➡ The PMS OnDemand constitutes the access control system, revenue management, Security system and statistical information.

PMS OnDemand™

(Parking Management System)

PMS OnDemand (Parking Management System OnDemand)
