## Benefit of our QuickMailer OnDemand Software

### Personalization - Personalize bulk emails.

Our QuickMailer can be used to send out personalized group emails, supports unlimited custom database-fields for personalization. Personalization makes a newsletter or bulk emails more personal.

e.g. "Dear John" is better than "Dear Customer". You can insert the personal information to any where in the Message Body and Subject line.

### Subscribe and Unsubscribe Facility - Manage your Bulk Mailing Subscription

With HRSS's QuickMailer OnDemand you can properly manage the subscription and un-subscription request properly; every mail sending contains one un-subscription link. If someone want to un-subscribe your bulk email, he can simply do that by clicking on the un-subscription link shown in the bottom side of your bulk email message.

### Bounce Email Management-

When you send huge quantity of emails, lots of emails getting bounced with a number of reasons like invalid email ID, inbox full etc...

QuickMailer Software can properly handle all the bounced bulk emails, you will get a report of bounced email IDs and you can remove those ID from your bulk mailing list.

### Email Read / Email Open Report -

You can track your bulk mailing response

From our bulk mailing software you will get a detailed report of how many people are opening or reading your bulk email messages. This report helps you analyze the efficiency of your bulk email marketing.
